I'm very much honoured to be part of Veltech Hightech Dr.Rangarajan Dr.Sakunthala Engineering College and very grateful to say about my college. The intangible attitudes, relationships and experiences that I had gained from this college made me to proud to be part of this college and to be part of CSE department, simply can't all be included. Yet still , the most talented high schoolers in the country line up day after day , eager to learn more about this place and hoping to join it.

It is their for fondness for this place that brings them back year after year, and thankfully for our managing trustees, principal, vice principal, higher education Coordinators and respected faculties that fondness also keeps our alumini giving rate so high.

Those on the outside looking in-alumini and visiting applicants remind us why we joined veltech hightech Dr.Rangarajan Dr.Sakunthala engineering college to come here and why we will miss it sooner than we think.
